Notice of Construction of "Ishikawa Plant No.2"

We are pleased to announce our decision to build the Ishikawa Plant No.2 in Hakusan City, Ishikawa.

1. Purpose of construction

In line with the recent increase in global demand for semiconductors, the demand for special ceramics is also increasing. In order to meet these needs, we are constructing a second plant on the premises of our development center in Yamashima Industrial Park to increase our supply capacity.

2. Overview of construction

Construction site:	1101 Mukaijimamachi, Hakusan, Ishikawa	
Site area:	9,002 m ²	
Total floor area:	5,350m ² (planned)	・ <!--</td-->
Investment amount:	4 billion yen (planned)	
Start of construction:	November 2021 (planned)	
Start of operation:	October 2022 (planned)	

• We will work to stabilize product quality and save labor by automating the manufacturing process.

3. Features of our ceramic products

We offer a wide range of high-purity fine ceramics and machinable ceramics, which are mainly used by manufacturers of semiconductor manufacturing equipment and components. Fine ceramics have high functionality to meet the strict specifications of our customers, while machinable ceramics provide a one-stop service not only for material manufacturing, but also for machining, enabling quick delivery. Recently, our ceramics have been adopted in growing fields such as medical, inspection, and analytical instrument, and we expect demand to expand in non-semiconductor fields.

In order to respond to the strong increase in demand for semiconductors and to meet the expectations of our customers, we, together with our parent company, Ferrotec Holdings, will continue to conduct research and development and capital investments.

- 4. About Ferrotec Material Technologies Corporation
 - 1) Company name : Ferrotec Material Technologies Corporation
 - 2) Established : December 1, 1989
 - 3) Head office : 2-3-4 Nihonbashi, Chuo-ku, Tokyo
 - 4) Representative : Tatsuya Noguchi, President and Representative Director
 - 5) Capital : 485,500,000 yen

:

:410

- 6) Shareholder : 100% of Ferrotec Holdings Corporation
- 7) Business contents
 - Manufacturing and sales of Semiconductor equipment related products (Vacuum Feedthrough, Quartz products, Fine ceramics products, Silicon Parts, CVD-SiC products, Machinable ceramics products, Quartz Crucible, Silicon Wafers, etc.)
 Manufacturing and sales of Electronic device products (Ferro fluids,
 - 2. Manufacturing and sales of Electronic device products (Ferro fiulds, Thermo electric modules, Power electronic substrate)
 - 3. Manufacturing and sales of Automobile related products

8) Employees
